

## **Eco Council Meeting Fri 29th September**

All members present/NB

### **Agenda: Open agenda**

Discussion of what it means to be an eco councillor

Does anyone have any questions about the role?

Does anyone have any ideas about what they'd like to achieve?

At this point we have decided to revisit and refresh the eco charter initiated last year.  
Looked at each point and assessed if they were still relevant

Talked about the final point on the charter inviting children to walk to school weather possible.

Next week is walk to school week - could the children host a walking bus?

All decided that would be a great idea to promote walking to school.

Children to take the class charter to class to revisit and display in an appropriate place.

**Next meeting 13th October**
