

**Global Goalkeepers Meeting
3rd November 2021 at 10.30am**

Present

Class 1: Roo and Nell;

Class 2: Benjamin and Bethan;

Special visitor: Reverend Diana Johnson.

Agenda

- Introductions;
- Switch Off Fortnight;
- AOB.

Comments and Actions

- The Global Goalkeepers introduced themselves and welcomed Reverend Diana to our meeting.
- Mrs Hart raised that, starting next Monday, it is 'Switch Off Fortnight'. The GGs took meter readings of the gas and electricity usage and inputted these into The Pod's website to monitor energy consumption before and after the initiative.
- The PowerPoint introducing Switch Off Fortnight will be shared, alongside the GGs, in worship on Wednesday. This is very timely as it will link to COP-26, which is occurring currently in Scotland.
- The GGs discussed how meeting together to discuss small changes to help the environment and climate change was just like the meetings taking place in Scotland!
- 'TURN ME OFF!' stickers were handed out to the GGs and they went back to class to stick on plugs and light switches to remind adults to turn things off that are not in use.
- Reverend Diana pointed out that it was ok to use things that were electrical, we just had to make sure they were turned off when not in use!
- AOB: Benjamin raised that the UK had pledged to only produce electric cars from 2030. Mrs Hart agreed that this would fit in with the UK plan to be net 0% carbon emissions by 2050. The GGs decided to research this further and promote it in school!

The next meeting of the Global Goalkeepers will be on Wednesday 10th November at 2pm.
