

## Summer 2      Learning Menu      Year 1/2

### Seaside Locations

Use items made of plastic that might end up in our oceans to create a sculpture of a seaside creature or seaside location.	Create your own beach safety flags or poster.	Design and label your own sandcastle.  Why don't you create it during our beach visit?	Investigate which plants grow at the seaside and report your findings.	End of topic challenge: Build a 3D model of the lighthouse that Grace Darling lived in
Create a potion. Measure the capacity of each liquid going into your potion. Measure in litres and millilitres.	Keep a diary of the temperature everyday for a week. Which day was it the hottest? Which day was it the coolest? How many degrees were there between the hottest and coolest day?	Estimate the height of everyone in your family. Then measure then in m and cm using a ruler. (you could even measure your pets).	Bake something and measure the mass using scales (kg/g). Take a photo or bring in what you have created.	<b>*WILCARD HOMEWORK*</b> <b>Create your own homework project linked to the seaside.</b>

Anything completed will be celebrated in class!

#### Year 1 Mental Maths Focus this half term:

- Number bonds to 20.
- Counting forward and back in 2s, 5s and 10s.
- To read the time to the nearest hour and half hour.
- Recall and write the days of the week and the months of the year.
- Measure mass using

#### Year 2 Mental Maths Focus this half term:

- Recall multiplication and division facts for the 10, 5, 3 and 2 times table.
- Number of minutes in a second and an hour and number of hours in a day.
- Telling the time to the nearest quarter hour (when secure to the nearest 5 minutes)

Thank you for your continued support 😊

Wednesday is the children's main opportunity for show and tell, if they have anything they'd like to show they can then.
